Jyväskylä, Finland

## EXPERTISE

- .Net development
- Object-oriented programming
- Problem-solving
- Testing and Automation
- Azure
- OpenTelemtery
- Postman
- GitHub Copilot

## LANGUAGE

**Finnish** (**Native**)

**English**

## ABOUT ME

Backend-focused Software Developer with over 4 years of experience in C# and .NET, skilled in building and testing APIs, and improving backend systems.
Keen interest in embedded systems and IoT solutions, demonstrated through personal projects with ESP32 firmware using C and React Native mobile app integration using TypeScript.

## EXPERIENCE

**Saima Soft Oy, 2021 - Present,** *Remote*

*Software Developer*

- Developed and maintained API using .NET framework and C#
- Implemented OpenTelemetry for exporting instrumentation data to Azure Application Insights.
- Collaborated with cross-functional teams to troubleshoot and resolve software issues efficiently.
- Acted as the primary developer in investigating bug reports, utilizing provided details to identify the issue and plan for its resolution.
- Performed +100 access control tests for API endpoints using Postman.
- Gained hands-on experience in full-stack development, contributing to frontend features using TypeScript and modern frameworks (e.g., React), while primarily focused on backend services.

## EDUCATION

**2020 - 2023** **Software Engineering**
*GRADIA Jyväskylä Educational Consortium*
